

Mom Cell

I pooped myself when I turned around....this is in the lodge...fuck I don't know what to do about this 😂😂😭

How cute! Can you wad a paper towel up to get them out of there?

iMessage

Mom Cell

I can throw a roll of paper towels at it from a distance and run like hell

Is it a wasp, or just a big beetle.

It's a beetle 😞 I wish it was a wasp cause I'd have a much better excuse for been completely terrified

OK, I'm about to pack up to leave. Should I come by and get him for you?

Omg yes!!!! I really don't think I can, I was gonna just wait a couple of days and see if he left 😂

Omg there was a wasp...but I took care of that one 😂

That is much more impressive been taking care of a big old big beetle.

Mom Cell

Fear is so irrational sometimes

Yes

Omg another fucking big ass black beetle in the fucking kitchen sink that was not there this morning wtf

So where is my picture of him? Do I need to coach you through his removal?

He is fucking moving

Can you video it while you are getting rid of him for my entertainment please?

Fuuuuuuck he is gonna stay there fuck it they aren't coming till Saturday it'll be fine. Whyyyyyy the fucking sinks

So get a big wad of paper towels reach down grab him and move him outside.

You say that like it's so easy

Mom Cell

I trained you to pick up worms, I promise you can do this!

Worms and Beetles from nightmares are two different things

I am trying so hard not to laugh at this, I know it's not funny to you. But really a big wad of paper towels a firm grip and a quick walk to the front door will solve this.

I'm losing my bowels just thinking about that, I'll come up with something that doesn't involve me feeling it

Maybe

Well if your bowels move, a wide of toilet paper will also be handy.

iMessage

You can do this!

I was so much more prepared to shoot the intruder last night than deal with this beetle

Does it fly?

Pretend like the beetle is the intruder

I don't think so
